AN UNFOUNDED RUMOR.

There is said to be a deadlock in the Supreme Court of Nevada, but the rumor is contradicted. Report had it that in the case of S. C. Wright vs. the Carson Water Company on appeal Justices Bigelow and Murphy held different views and Justice Belknap, being incapacitated by illness, a deadlock was the result. Now Justice Murphy informs the Appeal that the rumor that Justice Belknap was refraining from mental work in the advice of his physicians is unfounded, as he is now, and has been for some time past, doing at least four hours work a day on Supreme Court business.

The Appeal says the facts in the Wright case, which has been before the Supreme Court for some time, are as follows:

Sam Wright loaned the Water Company \$2,000, and took a note for the amount. When the note was to be paid Alford Helm, acting as secretary for the Water Company, laid the money on the counter and said he would like to borrow it for a while. Wright assented, but kept the Water Company's note. It was contended by the defense that Helm, not the Water Company, was responsible for the payment of the note. The lower court held that there was no transfer of the money and that Wright, still holding the note, was entitled to collect from the company.

The Appeal asserts that the case has been before the Supreme Court for several months, Justices Bigelow and Murphy holding different opinions on the points involved, and Justice Belknap on the advice of his physicians performing no mental labor, caused a deadlock.

Now it is stated upon the authority of Justice Murphy that Belknap devotes four hours daily to Supreme Court business. So the delay in deciding the Wright case must be due to other causes, in fact, it does not appear that any disagreement exists between the Justices.

In this connection the public will be pleased to know that Justice Belknap, whose health was in a precarious condition for a while is able to devote four hours a day to the duties of his office.

WHITE DECLARES FOR SILVER.

Senator White, of California, has placed himself in line with the silver men. In a speech in the United States Senate he referred to the statement of President Cleveland in his message that the time had come when gold and silver must part company, and contrasted it with the declaration of Wilson, who introduced the repeal bills that the object of that bill was to restore silver to its former standard. He showed by official statistics that there is nothing to justify the assertion that there is a surplus of silver as compared with gold, and demonstrated that the present production of silver did not create as much difference as existed between the metals when California and Australia were supplying the world with immense quantities of gold.

The speech, which was logical and forcible must necessarily have a good effect. Senator White represents the foremost gold producing State in the world, and one which is not dependent upon silver except to the extent that anything which makes the silver States prosperous benefits it in a general way.

Senator White is opposed to changing the rules to limit debate and express confidence in the good sense and ability of the people to right the financial tariff and all other questions of State or national importance. He adheres to the sentiments expressed by him before his election to the Senate and is in full accord with the Populists on every important principle.

EX-GOVERNOR McCORMICK of West Virginia, a prominent Democrat, has been before the Ways and Means Committee of the House of Representatives, pleading for protection for the coal industry. This furnishes further proof of the truth of General Hancock's assertion that the tariff is a local question. It is evident that West Virginia coal producers do not agree with Senator Sherman that a high tariff cheapens the price of protected commodities.

The United States Senate has allowed \$2,500 to each of the Senators appointed by the Governors of Montana, Washington and Wyoming. These Senators, by virtue of their appointments (the Legislatures of their respective States having failed to elect) claimed the right to seats in the Senate.

Their claims were rejected but the Senate was generous enough to allow them a fair remuneration for the trouble and expense they had incurred.

REPRESENTATIVE GEARY of California, the author of the Chinese Exclusion Act, has introduced a bill to suspend the immigration of all alien laborers for a period of five years. This is the first attempt to protect American labor from European labor, though several laws have been passed to protect American commodities from foreign competition.

The latest move on the Hawaiian chess board is to annex the islands and place them under the control of California. This movement seems to meet with favor at Washington.

THE STATE UNIVERSITY.

Some Facts Relating to its Present Condition and Outlook.

The large and varied exhibit of the University at the Pavilion is receiving much attention from visitors who naturally desire to know more about the institution itself. To them a few facts concerning its present condition and outlook may be of interest.

The University opened this year under brighter auspices than usual, for the increased attendance during a time of great financial depression has demonstrated the confidence of the people in their educational institution.

Nearly all of the old students have returned while enough new ones have entered to swell the attendance beyond that of the corresponding period of last year.

The scholarship of the students is excellent and they never were better graded than now, so that they are prepared to take up their studies with profit to themselves and credit to the University.

This growth in the attendance has been met by an increased faculty, also, and additional appliances for work. The Board of Regents very generously gave the Normal school much needed assistance by electing Miss Bardenwerper of Carson assistant in the Training school. This action has placed the school in a position to do thorough work in the training of teachers.

A stamp mill, recently erected in the rear of the Mining Laboratory, is a valuable addition to the equipment of the Mining school. The other Laboratories and the workshop are also, well equipped so that the students are able to pursue their work to the greatest advantage.

The library, in a sense the laboratory of the English and language departments, though still small for a college library, is steadily growing by the addition of standard works of various kinds. It receives a large number of newspapers, magazines and other periodicals devoted to philological and scientific research. The most of the books and periodicals may be drawn out by the students so that they may have the best of literature to read during their leisure time.

The management of the University has planned its courses so that the students may have their choice of either a professional or a liberal education. In the professional schools, the courses are so planned as to furnish the student with a technical education upon a substantial and comprehensive foundation. The practical side is emphasized with a view to fitting them to take up their professions immediately upon graduation.

The School of Liberal Arts, however, is designed to furnish a more general education by instruction in science and in language, history, finance, etc. This course is pursued by those who desire a liberal education or a still broader foundation for a professional course.

The courses of study are gradually being extended as the students become better qualified to take them up. This year a few additional courses have been added to raise the institution more nearly to the level of strictly University work. This extension is due in a large measure to the more thorough work done in the High schools throughout the State. This year a decided movement was made by them in extending their course of study. This will permit the University, within a short time, to raise its requirements for admission and at the same time strengthen still more its courses of study. It will have the additional effect, also, of bringing the schools and the University into closer relations than ever, which, if continued, must strengthen the Public Schools while raising the University to its proper place at the head of the State School system.

MALARIA AT LOVELOCK.

Stagnant Pools Cause Sickness and Death.

An insidious epidemic of malignant character has been raging around here for some time prostrating a great many of the people and proving fatal to not a few. The malady, which is evidently endemic merely, is attributed to the sloughs around town, particularly the one immediately west of the school house. This pool of stagnant filth is verily a perfect hotbed of disease, propagating and sending forth the most offensive effluvia, those messengers of sickness and death now playing such havoc with the health of the community. A petition signed by the citizens has been sent to the Board of County Commissioners praying them to have this nuisance abated but it may be necessary for the people to take some speedier action toward this end, the state of affairs becoming more serious every day.

This morning another fatal case occurred. Josie Campbell, the teacher in our primary department of the public school being the victim. Little over two weeks ago this estimable lady began her work of tuition. The third day afterward she was attacked with the malady, and to-day she has passed away beyond that bourne whence no traveler returns for evermore. Alas, how sad! Bright with hope, buoyant in spirit and stirred with a noble ambition to make her mark in the profession she had chosen, this promising teacher entered upon her irksome duties with an alacrity that showed her soul was in the work and augured well for her future success. But how true! It is man who proposes, a higher power disposes. Pallida Mora, which visits with equal step the palaces of the great and the cottages of the poor and snatches alike the young in years and the ripe in age, has intervened with

his ruthless summons, and now the fearful children are left without their teacher and a sorrowing family bereaved of a dearly loved one. To say that a deep gloom has been cast over the town by this sad event is but a feeble expression of the state of feeling prevailing here.

LOVELOCK, Sept. 19, 1893.

Telegraphic Notes.

Dr. F. O. Vincent, the wife murderer, was sentenced yesterday to be executed October 27.

Two young society bloods are said to have fought a duel with cavalry sabres at Chicago. Cause, a young lady.

The ex-cashier of the Bank of Puyallup, Washington has pleaded guilty to the charge of embezzling \$40,000 of the bank's funds.

Business messages are received uninterruptedly at New York from Rio Janeiro. They make no mention of the political situation.

The House Committee on Rules decided to report the order for two weeks' debate on the Federal Elections bill and then vote on the bill.

Governor Boies and other prominent citizens of Iowa delivered addresses at the World's Fair yesterday. It was Iowa day and there was a large attendance from the Hawkeye State.

Dr. West's mistress, Annie Staley, was arrested yesterday, charged with being accessory to the murder of Addie Gilmour, whose head was found incased in wire netting in the bay.

A daring, but unsuccessful attempt was made by four men to rob the Chicago and New Orleans express at a coal station near Centralia, Ill. The robbers fired upon and wounded the engineer and fireman. Jake Sanders, an old brakeman, who was among the passengers, fired at the robbers and wounded one or more of them. One of the robbers was captured by the train men, and gave the names of his accomplices, one of whom was subsequently arrested, and posesses are in pursuit of the others.

The House Committee on Foreign Affairs considered the McCrory substitute for the Everett bill, extending the time of registration of the Chinese. Discussion developed the fact that every member favored the extension of time to six months, with the possible exception of Geary. The latter gave notice that he would offer an amendment providing for identification by means of photographs. The Committee adjourned without action, but no doubt at the next meeting the bill will be favorably reported.

BREVITIES.

The verdict is universal that the display at the Pavilion is far ahead of that of any previous year. A visitor will have to spend more than one evening in the building to form any idea of the variety and extent of the exhibits.

The Nevada Woolgrowers are now thoroughly organized and will take immediate steps to enter a vigorous protest against any tinkering with the tariff on wool. A committee appointed by the association are now actively at work in that direction.

Last evening while loading a derrick-fork on a wagon the horses backed up and one of the tines of the fork struck M. J. Smith, the blacksmith, in one of his eyes, severely injuring that member. Dr. Hogan says there are serious doubts entertained of his recovery.

Silver City is excited over the finding in an abandoned shaft of the skeleton of a woman and a house, the bones of the former being underneath. They have been there, it is thought, for twenty-five years, but no one recollects anything regarding a missing woman.

Ayer's Hair Vigor

Makes the hair soft and glossy. "I have used Ayer's Hair Vigor for nearly five years, and my hair is moist, glossy, and in an excellent state of preservation. I am forty years old, and have direct on the plains for twenty-five years."—Wm. Henry Ott, alias "Mustang Bill," Newcastle, Wyo.

Ayer's Hair Vigor

Prevents hair from falling out. "A number of years ago, by recommendation of a friend, I began to use Ayer's Hair Vigor to prevent the hair from falling out and prevent its turning gray. The first effects were most satisfactory. Occasional applications since have kept my hair thick and of a natural color."—H. E. Basham, McKinney, Texas.

Ayer's Hair Vigor

Restores hair after fevers. "Over a year ago I had a severe fever, and when I recovered, my hair began to fall out, and what little remained turned gray. I tried various remedies, but without success, till at last I began to use Ayer's Hair Vigor, and now my hair is growing rapidly and is restored to its original color."—Mrs. A. Collins, Dighton, Mass.

Ayer's Hair Vigor

Prevents hair from turning gray. "My hair was rapidly turning gray and falling out; one bottle of Ayer's Hair Vigor has remedied the trouble, and my hair is now its original color and fullness."—B. The Gold Hill Miners' Union voted
49 for to 47 against accepting the pro-
posed reduction in wages. This com-
plicates matters with the Virginia
Miners' Union, which voted the other
way. A compromise is expected to settle
affairs.

The Magazine of Oratory says either

nounced "it-ther" and "ni-ther." Al-
though some ascribe it to affectation,
it is always gross ignorance. It origi-
nated in the blunder of a foreigner in
England. It is low English in England
and stupid ignorance in America.

VIRGINIA DAY AT THE FAIR.

The Comstockers Send a Large Delegation—Stock Parade—Good Racing—Fav-
orable Premises.

Certain days of Fair week are set
apart each year for our sister cities, and
yesterday was Virginia day. The Com-
stockers can always be depended upon
to send a large delegation to the Fair,
and yesterday was no exception to the
rule. When their train arrived in the
morning four coaches, with every seat
occupied unloaded at the depot, and
the visitors soon wended their way
toward the Fair grounds. The day it-
self was all that could be wished for,
and in fact was the first really pleas-
ant day since the opening of the Fair.
The sun shone brightly all day, with
just enough breeze to keep the atmos-
phere in a normal condition. Renosites
also turned out in force, and the result
was the largest attendance of the week.
The grandstand was comfortably filled,
most of those occupying seats therein
being ladies. The space in front of the
pool sellers stand and grandstand was
a complete jam of moving humanity.

STOCK PARADE.

The knowledge that the stock parade
would take place at 10 o'clock in the
morning drew a large number to the
grounds earlier than customary.

While the stock parade was not the
largest in the history of our Fairs, still
there was a sufficient exhibit to prove
to outsiders that Nevada is capable of
producing as fine bred cattle and
horses as any State in the Union. To
stockmen this is one of the principal
features of Fair week.

When the stock began to take their
respective positions the picture pre-
sented was a very pretty one. Stallions
prancing and neighing, quiet and gentle
brood mares with sprightly colts at
their sides, massive formed roadsters,
trim and handsome racers, finely
matched teams, quiet and mild-eyed
cattle promiscuously mixed on the
track, made a picture such as can only
be appreciated by a lover of live stock.

When the stock was all in position
the word was given to start and the pa-
rade marched in front of the grand
stand to the quarter-post and back
again, with the world-famous El Rio Rey
at the lead followed by Rey del Sierra,
the yearling colt for which it is said his
owner, Hon. Theo. Winters, lately re-
fused an offer of \$48,000. There were
many standard bred trotters and thor-
oughbred horses and cattle in line, and
as a whole, the exhibit was a very ac-
ceptable one. Joseph Marzen's fine
display of Durhams was greatly missed
in the procession, as seldom a year
passes without an exhibit of thirty or
more thoroughbreds from his farm.

THE RACES.

At 1:30 o'clock the bell tapping an-
nounced the time for the first race had
arrived, and shortly after the horses
were on the track ready for the day.

No. 16, running, five furlongs, \$250.
The entries were Gold Cloud, ridden
by Thompson; Red Cloud, by Ford;
Jim R., by Spence; Drummer, by
Smith; Realization by C. Clancy; Bor-
deaux, by Tubbenville; Stoneman, by
W. Clancy.

Jim R. sold favorite in the pools at
even money against the field. There
was considerable trouble in getting the
horses started, but when they did get
off Stoneman took the lead, and held
it to the three-quarter post, when the
position was changed with Realization
and Bordeaux in the lead and Jim R.
third. Coming down the stretch the
three horses named were neck and neck
with the riders using whip and spur
unsparsingly. In coming under the
wire the judges gave the race to Real-
ization, Bordeaux 2, Jim R., 3. There
was not more than a nose difference be-
tween the first two, with Jim R. about
a neck behind. Time, 1:08. The race
was the most exciting and closely con-
tested one of the week, and the short-
enders were given both courage and
money to invest in succeeding races.

No. 17, running, one mile and fifty
yards—\$300. Entries: Happy Day,
ridden by W. Clancy; Vanity, by
Spence; Raindrop, by Smith.
Raindrop sold favorite at \$10 against
\$6 for the field. The horses made a
pretty start and kept well together un-
til the half, when Happy Day dropped
behind. Coming down the stretch
Vanity and Raindrop were together,
the latter pulling in under the wire
winner by a length, Vanity 2
Time, 1:48½.

No. 18, trotting, 2:30 class, two mile
dash—\$300. Entries: Johnny Skelton,
driven by Hodson; Kodiac, by Hines;
Robert L., by Newman; and Alpha, by
Sweeney.

Robert L. sold favorite in the pools at
\$15, Johnny Skelton at \$5, and the
field at \$3. This was bait for the very
short-enders—\$20 against \$3—and a
good many took the bet, a large amount
of money changing hands on the result.
The horses got a good start, with Alpha
leading around the course, Robert L.
2, and Kodiac 3. Skelton broke badly
on the first mile and was thrown to the
rear. In coming under the wire for
the first mile Alpha was first, Robert
L. 2, Kodiac 3. Time, 2:30. Starting
on the last mile the positions were
only changed at the half by Kodiac tak-
ing second place. The horses were all
at a steady pace, and at the last half
Kodiac, Alpha and Robert L. were
nicely bunched, with Skelton some
distance in the rear. They came under
the wire with Alpha in the lead, about
half a length, Kodiac 2, Robert L. 3.
Time, 5:11.

No. 20, special, running, selling
purse, 6½ furlongs—Entries, Red
Cloud, ridden by Lopus; Carmel, by
Tubbenville, and Revolver by W.
Clancy.

Revolver sold favorite at \$10 against
\$3 for the field. In the start Carmel
took the lead and maintained it to the

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

ABSOLUTELY PURE

last quarter, when Revolver, with a
very little extra effort, forged ahead
and came in winner by half a length.
Carmel second. Time 1:24½.

No. 21, special, trotting, 2:30 class, 2
in 3, \$250—Entries, Esmeralda, driven
by Willis; Lucy by Blue; Kodiac, by
Hines; Dexter Chief, by Hodson, and
Princewood by Smith.
The principal pool selling was Prince-
wood \$10 against the field at \$7. Es-
meralda took the lead from the start
and maintained it around the course,
with Lucy second and Kodiac third,
coming under the wire of the first
heat, shutting Dexter Chief out. Time
2:34½.

Pools after the first heat sold with
the field favorite at \$18 and Prince-
wood at \$12.

In the second heat Esmeralda again
started in the lead, with Lucy a close
second. At the half Lucy took the
lead, with Esmeralda second, and
Kodiac third. Lucy came under the
wire winner, Kodiac second, Esmeralda
third. Time 2:31½.

Under the judges ruling, but two
horses, Lucy and Esmeralda, were to
start in the third heat. Pool selling
was \$15 on Esmeralda and \$5 on Lucy.
The judges, apparently, did not like
the looks of things and before starting
on the decisive heat the drivers were
halted before the judges' stand and
told that no jobbery would be tolerated
and if either driver failed to drive to
win he would be barred from the track
and the other horse given the race.

Esmeralda started in the third heat
and held the position to the outcome,
Lucy breaking badly on the stretch.
Esmeralda was declared winner. Time
2:34.

A FEAST.

In accordance with a custom in-
augurated some years ago by President
Winters of the State Agricultural
Society, President Martin yesterday
gave a banquet in the Directors' room,
at the grounds, in honor of the Direc-
tors, prominent stockmen and others.
President Martin was unavoidably ab-
sent, having gone to San Francisco to
attend the funeral of his late brother-
in-law, Mr. F. D. Stadtmuller, but not-
withstanding the absence of the Presi-
dent, those present heartily enjoyed the
elaborate spread, while expressing
regrets at the sad mission which ne-
cessitated the President's absence.

THE PAVILION.

The Pavilion continues to be the
center of attraction and new exhibits
are being placed every day. Among
those received yesterday was an ex-
hibit of hops from the ranch of J. H.
Thies of Lovelock, and is as fine a dis-
play of that class as has ever been
placed in the Pavilion.

A SERIOUS ACCIDENT.

Little Helen Fulton Sustains Serious In-
juries From a Fall.

Helen, the 4-year-old daughter of Mr.
and Mrs. R. L. Fulton, met with an ac-
cident last evening which resulted in
the fracture of the right leg, between
the knee and hip, and the left arm at
or near the elbow. The child was play-
ing in the bathroom in the second
story of her parent's residence. It ap-
pears that she backed against the
screen in the window which was sup-
posed to be securely fastened, and it
gave way and the child was precipi-
tated to the sidewalk twelve feet be-
low. Drs. Bergstein and Lewis at-
tended the little girl and alleviated
her sufferings as much as was possible
under the circumstances. Both child
and parents have the sympathy of the
community, and the sincere hope is ex-
pressed that little Helen, who is a ro-
bust child, will fully recover from her
severe injuries.

Equal to the Emergency.

Col. J. B. Overton started from Vir-
ginia City yesterday morning for Reno
by private conveyance, and while driv-
ing over the grade his team became
frightened, plunged, fell, broke the
carriage and threw the Colonel to the
ground. He was unhurt and soon got
his team straightened out, gathered up
the fragments of his carriage, returned
to the city, procured another team and
reached Reno in time to take in all the
exercises at the Fair grounds.

Dr. W. A. Phillips will start in a few
days for New York City where he
goes to take a post graduate course
in medicine and surgery. He will
spend four or five months in the large
hospitals of the East under the in-
structions of the ablest professors.
On his return home he will resume
work with his partner Dr. P. T. Phillips
who will attend to their practice during
his absence. Dr. Phillips has many
friends in Reno who wish him a full
measure of success.

The Gazette Publishing Company which
made the astounding discovery that
there was a conspiracy afoot to secretly
annex Utah to Nevada, objects to the
intimation that the goldbugs are re-
sponsible for the threatening letters
sent the silver Senators. As the cor-
poration organ believed that Utah
could be secretly annexed to Nevada
notwithstanding the Constitutional in-
hibition, its opinion of the conspiracy
to assassinate, or at least intimidate,
the silver Senators will hardly be ac-
cepted as conclusive.

Thomas Smith, the negro who as-
saulted and robbed Mrs. Bishop at
Roanoke, Virginia, was taken from jail
at that place by a mob and lynched.
The militia fired on the mob, killing
several persons.

This Frog Weighs a Ton.

The labyrinthodon, a huge creature re-
sembling a toad or a frog, and which
lived in the earlier periods of our planet's
history, has been found in a surprising
state of preservation in the mail beds of
Huezelwitz, Hungary. All species of
this gigantic frog are now extinct and
are known to the naturalists only through
the investigations of the geologists, who
have often found parts or entire fossils
of the monster in strata of the triassic
portion of the mesozoic period. South-
wick mentions it in a three line entry in
his "Quintessence and Key," under the head
"A Frog as Large as an Ox," and in
Barnett's "Geological Epochs" it is con-
sidered in a chapter on "Huge Froglike
Creatures of the Mesozoic Age."

The specimen unearthed in the Hun-
garian marl bed is entire with the excep-
tion of the left forearm and the lower
jaw. The skull measures 18 inches be-
tween the eye sockets and weighs, ex-
clusive of the missing underjaw, 312
pounds. The bones which have been dis-
covered up to date (and there is still
hopes of finding the missing parts), with
the adhering matrix, weigh 1,860 pounds,
almost a ton.—St. Louis Republic.

"August Flower"

Billousness, "I have been afflicted with biliousness, constipation, stomach, first one and then another preparation was suggested to me and tried but to no purpose. At last a friend recommended August Flower. I took it according to directions and its effects were wonderful, relieving me of those disagreeable stomach pains which I had been troubled with so long. Words cannot describe the admiration in which I hold your August Flower—it has given me a new lease of life, which before was a burden. Such a medicine is a benediction to humanity, and its good qualities and wonderful merits should be made known to everyone suffering with dyspepsia or biliousness." **G. G. GREEN, Sole Man'fr, Woodbury, N.J.**
